Ivan Reeve Lopez

Applicant for Developer

ABOUT ME

Hi, I am Ivan Reeve Lopez. People like to call me Van/Reeve. I write, and read non-fiction books. I have keen interest in web technology and software development but I like to explore my options. I try my best to educate myself on just about anything :)

2023 **Merp Store Pet Supplies**

Assisted with encoding spreadsheet data, logistic operations and paperworks.
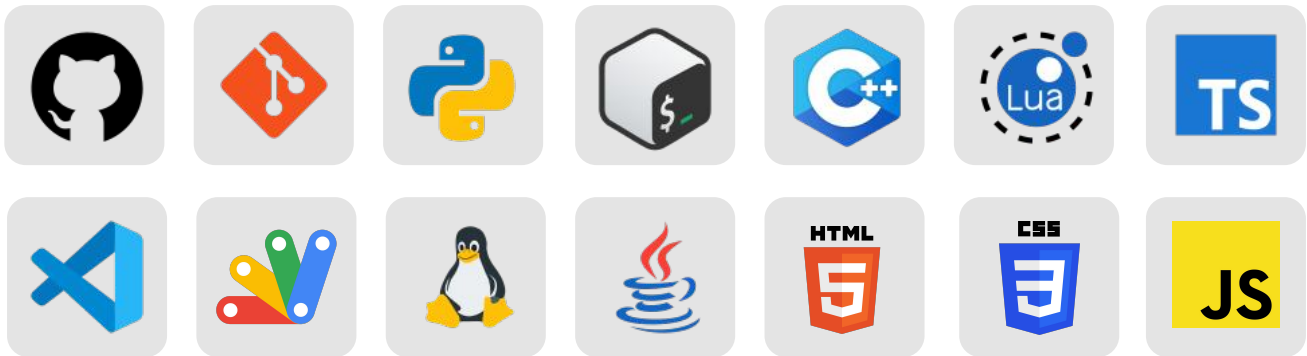

Hobbies and Interests

Games I maintain servers of my favorite childhood game Minecraft that I use for testing. Whenever I find time, I make texture packs, mods, tools, and share them online.

Photo/Video Editing I sometimes make content to promote my hobbies, and that often includes editing photos, videos and other promotional materials.
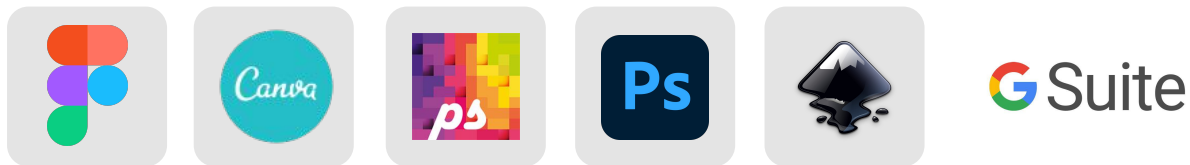

Programming Python was the first programming language I had written in. I use it almost everyday with Shell and sometimes Google Apps Script, as it comes in handy for quick automation. I solve programming problems in Leetcode, Hackerrank and Codeforces to keep my mind sharp.

Learning I am a fan of lifelong learning. Learning cool, novel things scratches my curiosity itch. This is what I love about technology; cool things come out all the time.

Technical Skills

Developer Tools: Github, Git, Python, Bash, C++, Lua, TypeScript, Vim/Visual Studio Code, Google Apps Script, GNU/Linux, Java, HTML, CSS, JavaScript

Other Tools: Figma, Canva, Pixel Studio, Adobe Photoshop, Inkscape and Google Suite of Applications (Google Docs, Google Slides, Google Sheets ... etc)

Soft Skills

Soft Skills:

Good Work Ethic	Critical Thinking	Creativity	Curiosity
Punctuality	Productivity	Resourcefulness	
Leadership	Receptiveness	Optimism	
Courage	Responsibility	Team Player
